

Sadegh Baradaran

Job role: DevOps Engineer

3 years in Vox

YOU CAN MAKE
PROGRESS
OR YOU CAN
MAKE EXCUSES

What is the most exciting thing about working at VOX?

- Progress. Ownership. Energy loop.

How would you describe the team you are working with?

- Smart, supportive, funny, unstoppable.

T E A M W O R K

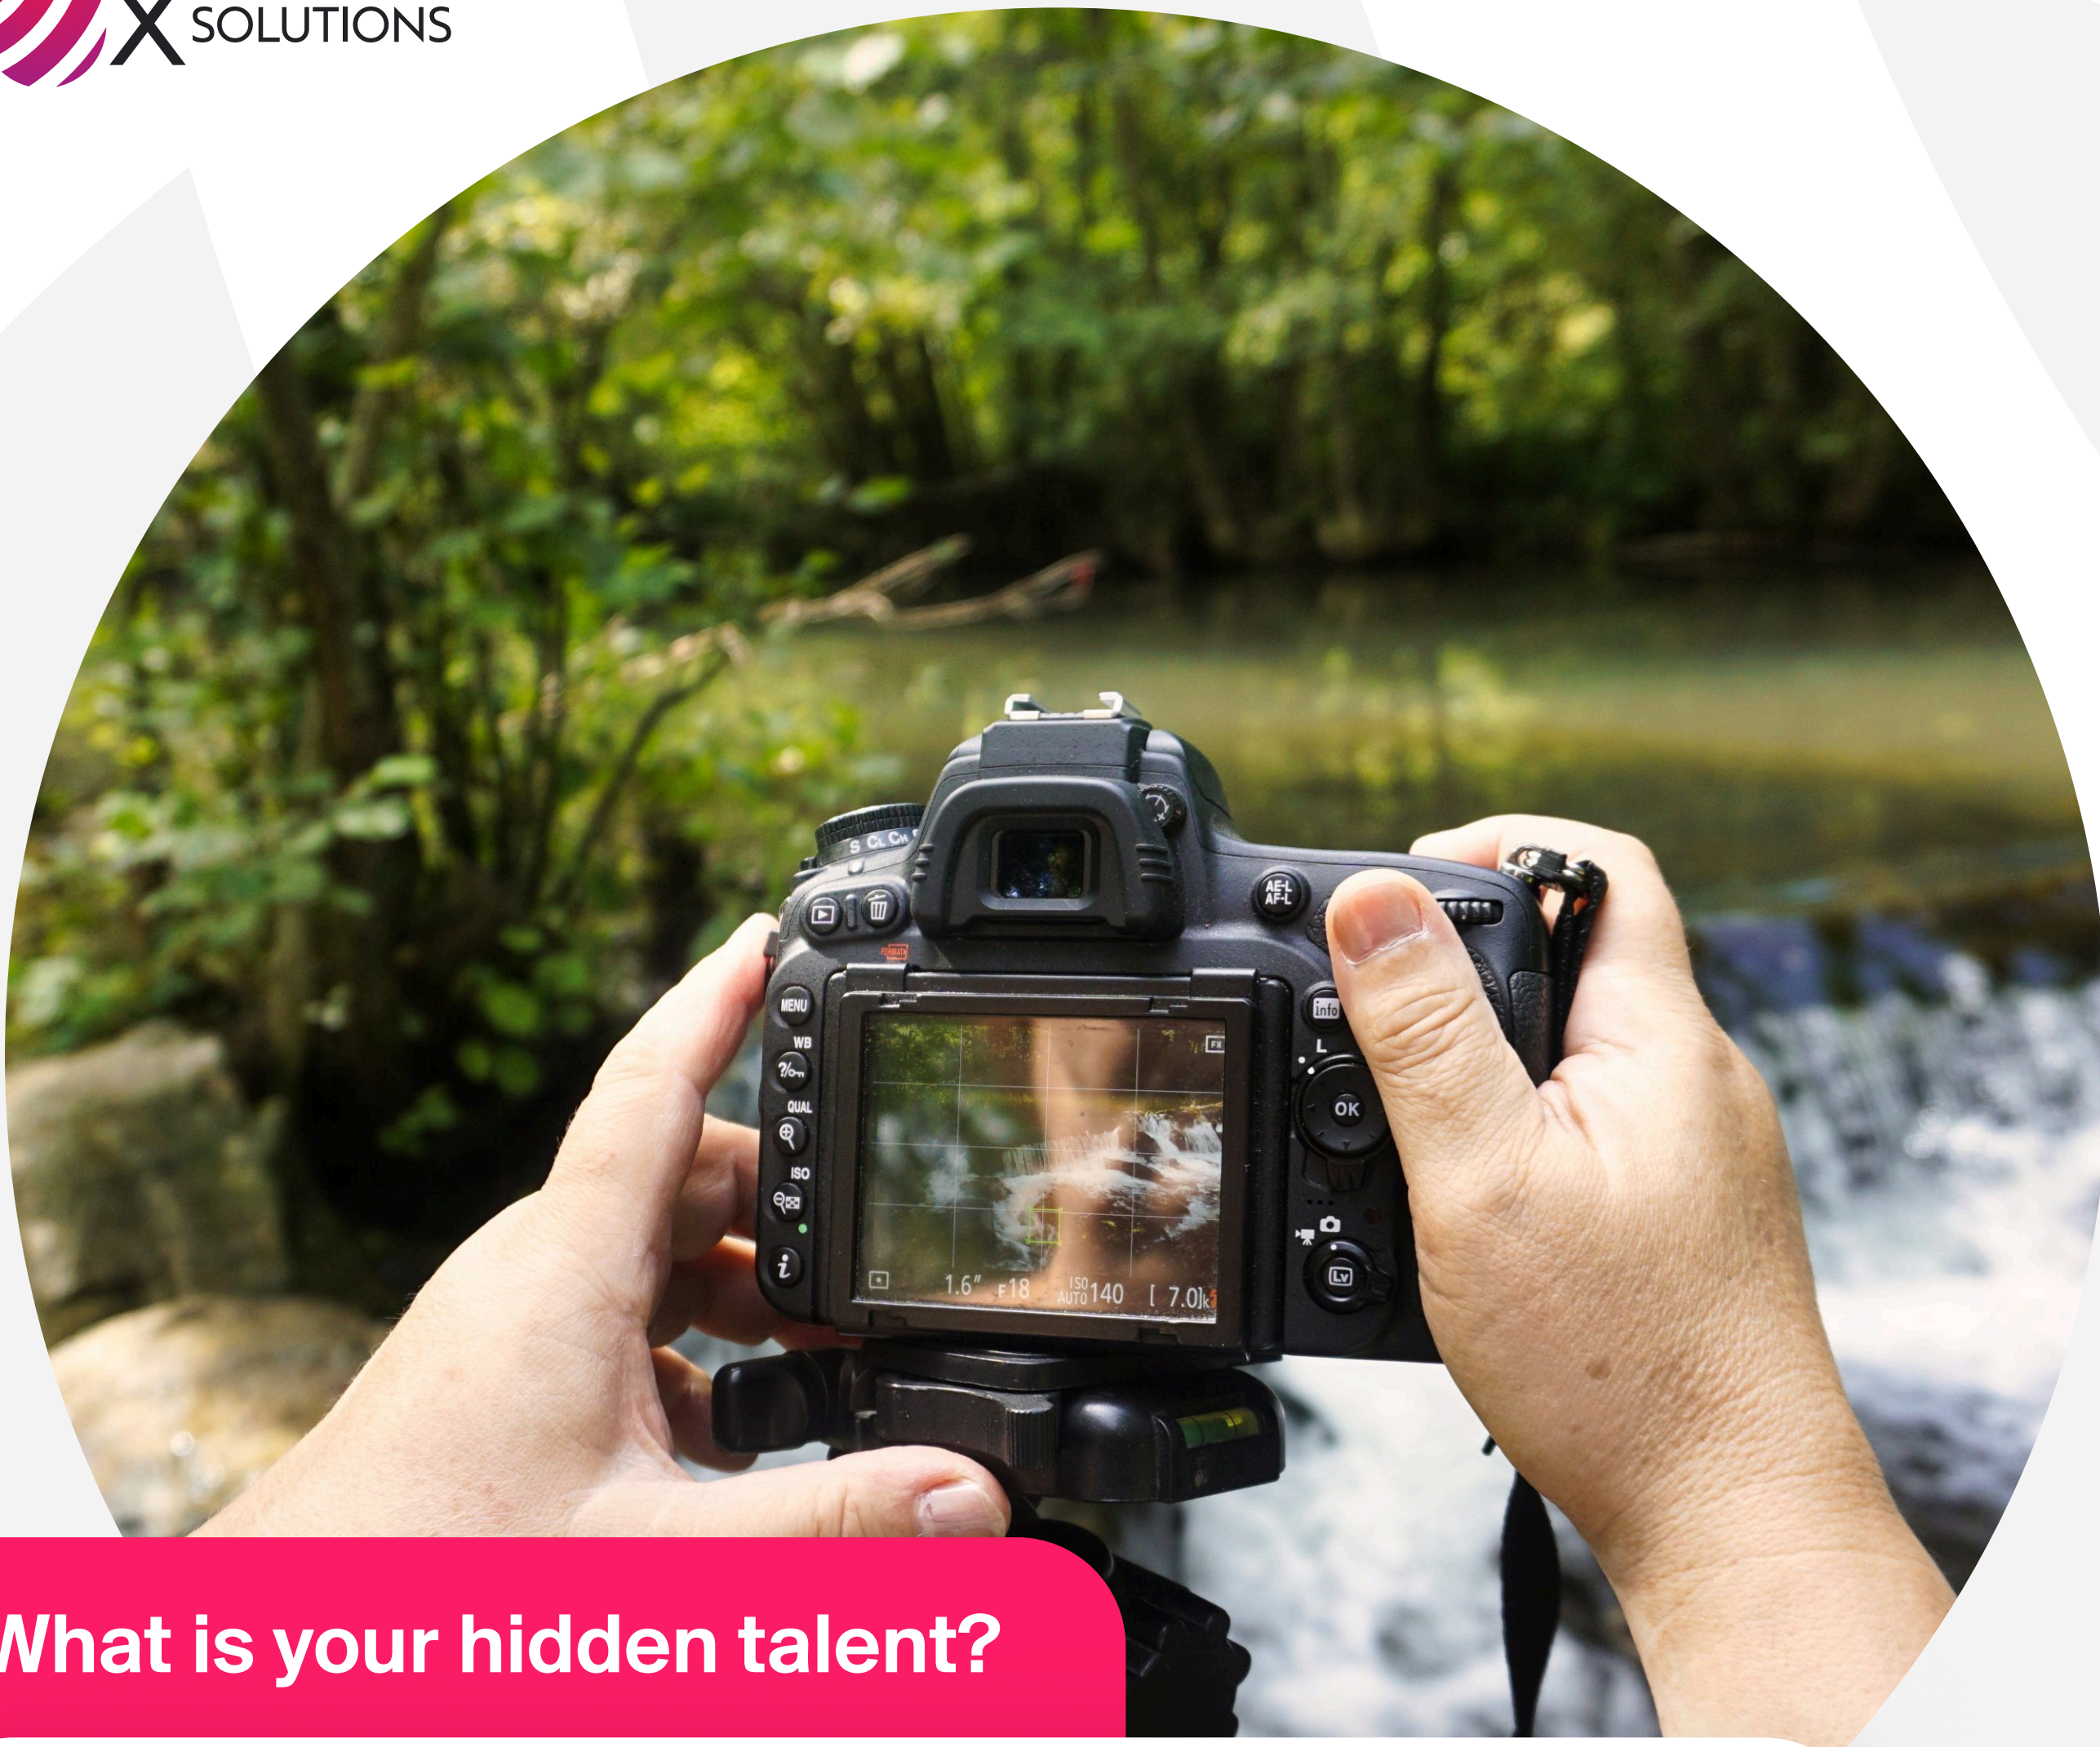

Which VOX core value resonates with you most?

-  **Collaboration** - I'm constantly working across teams, solving problems and keeping things moving. Vox's collaborative culture makes that easier and more fun.

New things that you would like to learn?

- 🌀 **Spanish.** Cloud wizardry. Maybe even some Python tricks I promised myself I'd learn last year. Soon I'll say "¡Funciona!" with confidence when my script runs.

What is your hidden talent?

- 🌀 I'm a pretty decent photographer with a sharp visual eye. I can spot a good angle faster than a flaky deployment – and that's saying something.

What destination do you hope to visit one day?

 **Norway** – the kind of place that looks like a wallpaper, except it's real. I'd go for the views and probably end up building a photo album titled 'No filter, I swear.'

<DEBUGVANA>

If you could add a word to the dictionary, what would you add and what would it mean?

 **Debugvana (n.):** The joy when your fix works and you act like you knew it all along.
